CA' DEL SETTE® - WWW LINE

In an era where internet is part of our daily life, we have decided to create this “Frizzante” (semi-sparkling wine) for young people who want to approach the world of wine, trying at the same time to keep alive the traditions of our lands.

*The combination of the name **www.950cadelsette.it**, which reminds the Web World, with the historical map of our territory wants to maintain united two worlds which are apparently opposite: Innovation and Tradition; two worlds dependent on one another because without tradition there cannot be innovation. The word “WWW” stands for **Wine We Want**.*

*In this way we wanted to create the slogan “*il vino che vogliamo: Ca' del Sette italiano”, to bring young people closer to the world of wine with a low alcohol content line and at the same time allow people to consume it at any time of the day, never giving up for a good glass.*
