CHARDONNAY®

CA' DEL SETTE® LINE

Chardonnay has become the best known white grape variety in the world, perhaps because it has a particularly incisive taste but also leaves room to take on the character desired by the producer: lively and sparkling, fresh, rich and buttery, even sweet. By its very nature, which allows for an infinite number of declinations, it is practically impossible to indicate a range of dishes or foods with which Chardonnay exalts itself. In its most basic, simple and fresh versions, the best place is probably at aperitif time; it can also give its best when accompanied by a shellfish dish.
